

Calculating Kids Program

NEED is launching "Calculating Kids," a program designed to prepare seventh through twelfth grade students for upper level math and beyond. Sessions will be held afterschool on Tuesdays and Thursdays, at the Unity Baptist Church in Braddock, PA, from four pm until six pm. Interested students can simply show up and receive instruction from one of our teachers. For more information, please go to our website www.needid.org.

Goals of Calculating Kids include:

- **Homework help**
- **Excelling in standardized testing**
- **Generating interest in math careers**
- **Preparing for SATs**
- **Introducing high school math**
- **Encouraging college attendance**

Calculating Kids includes field trips to the Carnegie Science Center and Westinghouse Global Headquarters!
